

UČNI NAČRT PREDMETA / COURSE SYLLABUS	
Predmet:	Strateške presoje vplivov na okolje
Course title:	Strategic Evaluation of Environmental Impacts

Študijski program in stopnja Study programme and level	Letnik Academic year	Semester Semester
Ekotehnologije, 3. stopnja	1	1
Ecotechnologies, 3 rd cycle	1	1

Vrsta predmeta / Course type	Izbirni / Elective
------------------------------	--------------------

Univerzitetna koda predmeta / University course code:	EKO3-706
---	----------

Predavanja Lectures	Seminar Seminar	Sem. vaje Tutorial	Lab. vaje Laboratory work	Druge oblike Other	Samost. delo Individ. work	ECTS
15	15			15	105	5

*Navedena porazdelitev ur velja, če je vpisanih vsaj 15 študentov. Drugače se obseg izvedbe kontaktnih ur sorazmerno zmanjša in prenese v samostojno delo. / This distribution of hours is valid if at least 15 students are enrolled. Otherwise the contact hours are linearly reduced and transferred to individual work.

Nosilec predmeta / Lecturer:	Doc. dr. Branko Kontić

UPORABA IN UČINKOVITOST CELOVITE PRESOJE VPLIVOV NA OKOLJE TER PRESOJA VPLIVOV NA ČLOVEKOVO ZDRAVJE, Raziskovalni projekt v okviru ciljnega raziskovalnega programa "Konkurenčnost Slovenije 2006-2013", Univerza v Ljubljani, Biotehniška fakulteta, Oddelek za krajinsko arhitekturo, v sodelovanju z Institut "Jožef Stefan", Aquarius ekološki inženiring d.o.o. Ljubljana, Inštitut za neionizirna sevanja, 2012

Cilji in kompetence:

Cilj predmeta je usposobiti študente za strateško presojanje vplivov na okolje in izvajanje multidisciplinarno sinteze pri vrednotenju alternativ za odločanje o rabi okolja v sklopu razvojnih programov. Poudarek je na potrebah po strateškem ocenjevanju in skladno s tem različnih uporabah presoje, metodah in orodjih interdisciplinarnega ocenjevanja vplivov na okolje ter načinu prikazovanja rezultatov. Upoštevani bodo: družbeni razvojni interesi, gospodarstvo, zdravje in kakovost življenja, urejanje prostora, legalnost, metode načrtovanja, optimizacija ter večparametrsko in večfazno vrednotenje.

Z vidika kompetenc študijskega programa so cilji predmeta povezani s pridobivanjem spretnosti in usposabljanja za izvajanje preventivnega okoljevarstvenega delovanja na strateški ravni.

Objectives and competences:

The aim of this course is to train students in strategic environmental impact assessment and practicing multidisciplinary synthesis. Both will be applied through the evaluation of alternatives for societal development programs assisting different levels of decision-making. Starting from the needs of strategic evaluations various purposes of assessments will be presented and discussed together with methods and tools of interdisciplinary assessment of environmental impacts. Special attention will be placed to the form of presenting results of strategic evaluations. Considerations will cover: societal development interests, the economy, health and quality of living, land-use optimization and arrangements, legality, planning levels and approaches, multi-parameter and multi-phase evaluation.

In the context of the study program the objectives and competences of the course are related to developing and demonstrating working capabilities in the area of preventive environmental protection at strategic level.

Predvideni študijski izidi:Sinteza:

- povzemanje in pospološevanje,
- združevanje in kategorizacija,
- povezovanje,
- zagovarjanje,
- načrtovanje,
- predlaganje.

Presojanje:

- ocenjevanje,
- kritično odzivanje,
- pojasnjevanje,
- primerjanje in razlikovanje,
- rangiranje in prepričevanje,
- tolmačenje in utemeljevanje.

Uporaba:

- prikazovanje,
- napovedovanje,
- prilagajanje,
- reševanje.

Splošne kompetence:

- kritična obravnava razvojnih pobud v kontekstu rabe prostora in možnih vplivov na zdravje,
- sposobnost sodelovanja v timu različnih strokovnjakov.

Internacionalizacija (mednarodni trendi):

- pričakovanja študenta glede usposobljenosti po uspešno opravljenem izpitu,
- usklajevanje razumevanja učitelja in študenta glede koristnosti, ciljev in načina ocenjevanja.

Intended learning outcomes:Synthesis:

- Summarise and generalise;
- Assemble and categorise;
- Relate and integrate;
- Explain and argue;
- Plan;
- Propose.

Evaluation:

- Appraise;
- Criticise;
- Explain;
- Compare and discriminate;
- Rate and convince;
- Interpret and justify.

Application

- Demonstrate;
- Predict;
- Modify;
- Solve.

General Competences:

- The student will be competent in evaluating development proposals in the context of land-use and public health;
- The student will develop ability to work in a team of multiple experts in different fields.

Internationalisation (international trends):

- Student-centred approach, i.e. the focus is on what the students are expected to be able to do at the end of the course;
- Reflection to students' perceptions regarding benefits, aims and forms of learning assessment.

Metode poučevanja in učenja:

- Predavanja
- Seminarji
- Vaje
- Razprave/eseji

Delež (v %) /

Weight (in %)

Learning and teaching methods:

- Lectures
- Seminar work
- Exercises
- Discussions/essays

Načini ocenjevanja:**Seminar in pisni ali ustni izpit:**

- procesno ocenjevanje (usmerjanje študenta k čim boljšem doseganju izidov)
- sumarno (zaključno) ocenjevanje kompetenc

Assessment:

Seminar and written or oral exam:

- Formative assessment;
- Summative assessment
